Education

- **Yichun University** — Yichun, China
  Bachelor's Degree in Communication Engineering — *September 2020 - July 2024*
- **China Jiliang University** — Hangzhou, China
  Master's Degree in Information and Communication Engineering — *September 2024 - Expected July 2027*

Skills

- **Programming Language**
  C/C++, Python， Swift(App Development with Swift Certified User)

Professional experience

- **Apple My Summer22** — Zhanjiang, Guangdong, China
  As a programming instructor and providing free coding summer camps kids ages 6 - 12 — *July,22 2022 - August,21 2022*
- **She Codes AI Bootcamp** — Shanghai, China
  As a lead instructor, providing free AI programming lessons for 15 high school girls. — *July 25, 2026 - July 27, 2026*
- **Science and Creative Thinking Courses** — Qicheng School, Hangzhou, China
  As an instructor, developing students' problem-solving and creative thinking skills. — *September 2025 - January 2026*
- **AI Programming Course** — Qiantang School, Hangzhou, China
  As a programming instructor, guiding students to create interactive websites using AI. — *September 2025 - January 2026*
- **Hardware Programming Course** — Nanyang Primary School, Hangzhou, China
  As a programming instructor, teaching students to control hardware using Arduino. — *March 2026 - June 2026*
- **AI Design Course** — Xuelin Primary School, Hangzhou, China
  As an instructor, guiding students to create picture books using AI tools. — *September 2026 - Present*

Awards

- **National Scholarship / National Encouragement Scholarship** — *2022/2021*
- **Third Prize, China Graduate Mathematical Contest in Modeling** — *December 2025*

Projects

- **Turtle —Environmental Education App** — *iOS, SwiftUI*
- **Feelody —Accessible Music Learning App** — *iOS, SwiftUI*

Publications

- **Terahertz high-quality-factor topological corner-state cavity designed via policy-based reinforcement learning** — *First Author, SCI Q3*
- **Controlling topological phases of high-frequency bandgap in configurable terahertz photonic topological insulators** — *Third Author, SCI Q2*
- **Topological Phase Transition by Tuning Central Unit in C3 Symmetric Lattice of Terahertz Photonic Crystals** — *Second Author, SCI Q3*
